Our mission

Our mission is to create our presence in the Construction Industry as a Market Leader with Solutions of Engineering Design services under one roof and by delivering the assignments up to utmost satisfaction level of our Clients. Capacity building by enhancing Knowledge of emerging relevant Design Practices and latest International Standards. Delivering assignments with full grip and knowledge of Technical as well as Finances of the Project.

Vision Statement

Our vision is to become Market Leaders in Engineering Sector, by addressing and fulfilling the modern market needs. We intend to change the market concept by introducing awareness of the importance of Engineering services. We aim to deliver these services with professionalism to create potential competition in this field.

Quality Policy

Quality Documentation, Internal and External Quality assurance of deliverables , Quality Environment, Quality Management, Quality Service Management and delivery and hence a Total Quality Management is our mission. We are determined not to compromise on Quality of the Services we deliver, at any cost.

Aftab Hanif

Chief Executive Officer

Message From the CEO

At 'MEP Consulting Engineers (Pvt.) Ltd.', we believe that engineering is more than just technical expertise — it is the art of transforming ideas into sustainable, efficient, and lasting solutions. Since our inception, our mission has been clear: to deliver excellence through innovation, integrity, and collaboration.

In today's rapidly evolving world, the role of an engineering consultancy is not only to design and advise but to foresee challenges, embrace emerging technologies, and contribute to building a safer, smarter, and more resilient future. Our commitment to quality and precision is reflected in every project we undertake — from concept to completion.

What truly sets us apart is our people. Our team of dedicated professionals brings together a wealth of experience and a shared passion for solving complex challenges. We value strong partnerships with our clients, built on mutual trust, transparency, and a shared vision for success.

As we move forward, we remain committed to expanding our capabilities, enhancing our expertise, and upholding the standards that have earned us the confidence of our clients. Together, we will continue to shape projects that stand the test of time.

Thank you for placing your trust in 'MEP Consulting Engineers (Pvt.) Ltd'. We look forward to building the future — together.

company why us

Expertise in Architectural, Structural, Infrastructure, Electrical, Mechanical, Plumbing, Fire Fighting and HVAC Design.

More than a decade of successful market existence with Satisfied clientele.

Delivered Design services for Millions of Square Feet and Variety of Projects.

Team of Professional Engineers available for Design and Supervision.
